**HIRING OUR
HEROES**

Core Competencies

Valparaiso Power & Battery is a small business enterprise that designs and builds reliable, stand-alone industrial power solutions and electronic assemblies for integration into OEM products and off-grid field applications. With proven reliability in extreme environments, our solar, battery backup, and hybrid power systems are pre-engineered, assembled and tested for easy installation and minimal maintenance. We also offer a broad spectrum of remote industrial power system components, such as electrical components, batteries, solar modules, enclosures, and solar module mounts.

Products

- Solar electric power systems
- Uninterruptible power sources
- Battery back-up systems
- Wholesale system components
- DC and AC power conditioning systems
- Solar/Generator/Hybrid systems

Services

- Contract manufacturing
- Power system specification & design
- Engineering & consultation
- Solar module mounting construction
- Disaster response mobile solar trailers
- System maintenance

Past Performance

Our business focuses on working closely with our customers to understand power system requirements and provide high quality, comprehensive, reliable, and cost-effective power systems to meet customer needs. We are constantly evaluating our approach to ensure we are using industry-leading products and the highest standards when building our systems. We are committed to excellence in everything we do, which is why our customers continually come to us with their power needs.

Government

- Valparaiso Government Bldg
- Valparaiso City Hall
- Department of Veterans Affairs
- Department of Agriculture
- Department of Energy
- Department of Transportation
- National Parks Services

Commercial

- IVY Tech
- NIPSCO
- Verizon
- Emerson
- Valparaiso HS
- SMMC

Residential

- Easton Park
- Aberdeen
- Nardo Homes
- Eagle Ridge

International

- PREPA
- LUMA
- Enbridge
- Niagra Power

Differentiators

Our real point of difference is the ability to collaborate with customers and partners to provide custom battery-based power solutions for remote locations, suited to meet very different application needs.

- Service Disabled Veteran Owned Small Business / Hiring Our Heros Sponsor
- Close relationships with top-tier vendors for reliable components
- Experienced Project Managers & Engineering team
- Custom manufactured power systems.
- Documented quality control manufacturing program with pre-shipment quality control testing of all manufactured power systems
- Fast design and installation of high quality custom off-grid, mobile, and grid-tied systems
